Utility	Checks	Totals	Summary	Vehicles	Street Lighting	Energy	Greenhouse	Totals
Electricity								
Gas								
Oil								
Water								

UT Reporting Enhancements

- > Compatibility with CCP
- > Allows billing of renewable energy sources (solar, wind etc)
- > Report on a particular month for a range of years
- > Reporting on more Site Types.
- > Reporting on All Sites & Find Top 20 & Bottom 20 energy efficient facilities
- > Coefficients to be based on yearly values
- > Updated benchmarking will be available as the product is exposed to more councils

Demand

Actual and Billed Demand Comparison
